

Services to Libraries: 8th Legislative District

The Washington State Library (WSL) ensures that residents of the entire state have access to educational materials, research capabilities, and resources that change lives. WSL achieves these goals using federal Library Services and Technology Act (LSTA) funds, which are dependent on state matching funding, to offer consulting services, grants, subsidies, training, and other programs that improve libraries.

Awards & Subsidies

WSL provides funding to support local libraries through circulating STEM kits, professional development grants, digital literacy, early literacy programming, cost-sharing of online databases, and 24/7 online reference services.

Total Federal Funding

 Statewide Library Projects
 Awards & Subsidies
 Washington Talking Book & Braille Library
 Prison & Hospital Libraries

For every \$1 of state funding, the state receives approximately \$1.16 in additional federal LSTA funding to support libraries.

\$24,932 to 8th Legislative District libraries

The Washington State Library (WSL) is the only state agency specifically designated by law to assist local and regional libraries with library and information services. Below is just one example of how WSL has helped libraries in this district connect with communities and improve the quality of life for their patrons. This project and more, such as our new Lynda.com partnership, continue to drive our public libraries into the future.

Since 2007, WSL has offered grants to Washington libraries to help digitize historic community documents and artifacts. Libraries often partner with a local history museum to access these unique local items. Grants help libraries purchase equipment and pay for staff time to perform the work, and State Library staff provide in-person hands-on training. When the work is done, the scanned items are hosted on the Washington Rural Heritage website. Over the years, this collection has grown to be a rich, personal, and intimate portrayal of early Washington history. The Asotin County library received one of your grants last year, and thanks to a gift from the Nez Perce County Historical Society, digitized a collection of 98 photographs and 11 prints taken by freelance photographer Al Munson. The photos were taken in the Asotin County area from 1950 to 1952, and include community members, community events, and buildings and storefronts. The items were added to the Asotin County Heritage collection on the Washington Rural Heritage website, greatly enhancing their reach to a global audience.
